Environmental Policy

Acorn Storage Equipment Ltd

Updated: October 2011

Acorn Storage Equipment Ltd. believe that we have a responsibility to care for and protect the environment in which we operate. We are fully committed to improving environmental performance across all of our business activities, and will encourage our business partners and members of the wider community to join us in this effort.

Acorn Storage Equipment Ltd. recognises our key impacts to be in the areas of:

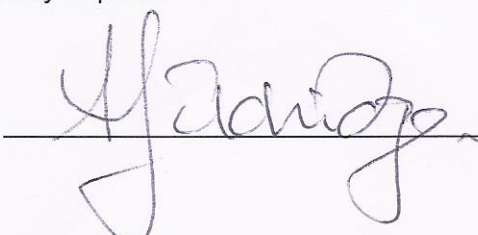

- raw material use
- waste generation
- recycling
- transport
- procurement

Our core business is the reusing of pallet racking, storage systems and associated fittings.

We will strive to:

- Adopt the highest environmental standards in all areas of operation, meeting and exceeding all relevant legislative requirements.
- Assess our organisational activities and identify areas where we can minimise impacts.
- Adopt an environmentally sound transport strategy.
 - Our sales team and installation team all possess Satellite Navigation Systems to ensure the shortest and most efficient routes are utilised.
 - Effective loading of lorries ensures our teams travel with a full load where possible, minimising return trips.
- Minimise waste through careful and efficient use of all materials and energy.
- Purchase sustainable products wherever feasible [e.g. recycled, FSC or low environmental impact products and energy from renewable sources].
- Train employees in good environmental practice and encourage employee involvement in recycling and reusing office supplies and equipment, utilising the natural lighting with our offices and switching off unused office equipment.
- Reduce risks from environmental, health or safety hazards for employees and others in the vicinity of our operations.
- Continually assess the environmental impact of all our operations.

Acorn Storage Equipment Ltd will periodically review our environmental impact and strive to consistently improve
